# Custom packaging systems for demanding transport goods

KIPA has been successfully operating in the market for more than 45 years. Why? Flexibility. This means providing fast, reliable, and individually tailored packaging solutions. The core business consists of industrial export packaging and customer-specific individual packaging solutions — ranging from the smallest units to specialized packaging for land, air, and sea freight.

## KIPA stands for:

- Spatial flexibility
- Customized solutions
- Intelligent industrial packaging solutions from a single source

## We are a member of the ARCA Group

As a member of the ARCA Group, **KIPA** is part of a network of strong, independent companies. Together, we pursue one goal: to use resources intelligently, grow across regions, and provide our customers with tailored, cross-industry solutions — today and in the future.

ARCA Group and its  
companies!

# Our Services

We offer flexible packaging solutions made from solid wood and engineered wood materials. Our range of services includes a comprehensive packaging service, including professional packaging in accordance with HPE packaging guidelines — both on-site at our customers' locations and at one of our three facilities. As a member of the “HPE – Certified Custom Packaging” specialist group, we are regularly certified. In addition, we supply packaging materials as well as various load carriers.

## Do you handle your own packaging?

### We deliver quickly and flexibly:

- Crates of all kinds
- Export crates
- Wooden constructions
- Packaging materials and much more

*Come visit us!*

## Your advantages:

- Tailor-made solutions
- Custom manufacturing
- Short lead times

## Packaging services

- On-site consulting
- Tailor-made solutions
- Storage of your goods
- Coordination of transport processes
- Comprehensive options and services for packaging materials within the ARCA Group
